GREENGOOSE BRAND STORY

World

Goose

Leaf

Circular Form

It represents the earth and a global mindset. It signifies a structure encompassing a safe zone.

Type

Powerful with its extended weight, modern with its oval edges, legible with its proportional spacing.

Leaf

It signifies the nature. Its lines blanketing the earth symbolizes an environmentally-friendly structure.

Flying Goose

A reference to the Swedish Culture and 25 years of experience. The Earth-Bearing Goose is a symbol of power and transportation.

28 YEARS OF TRUSTED EXPERIENCE

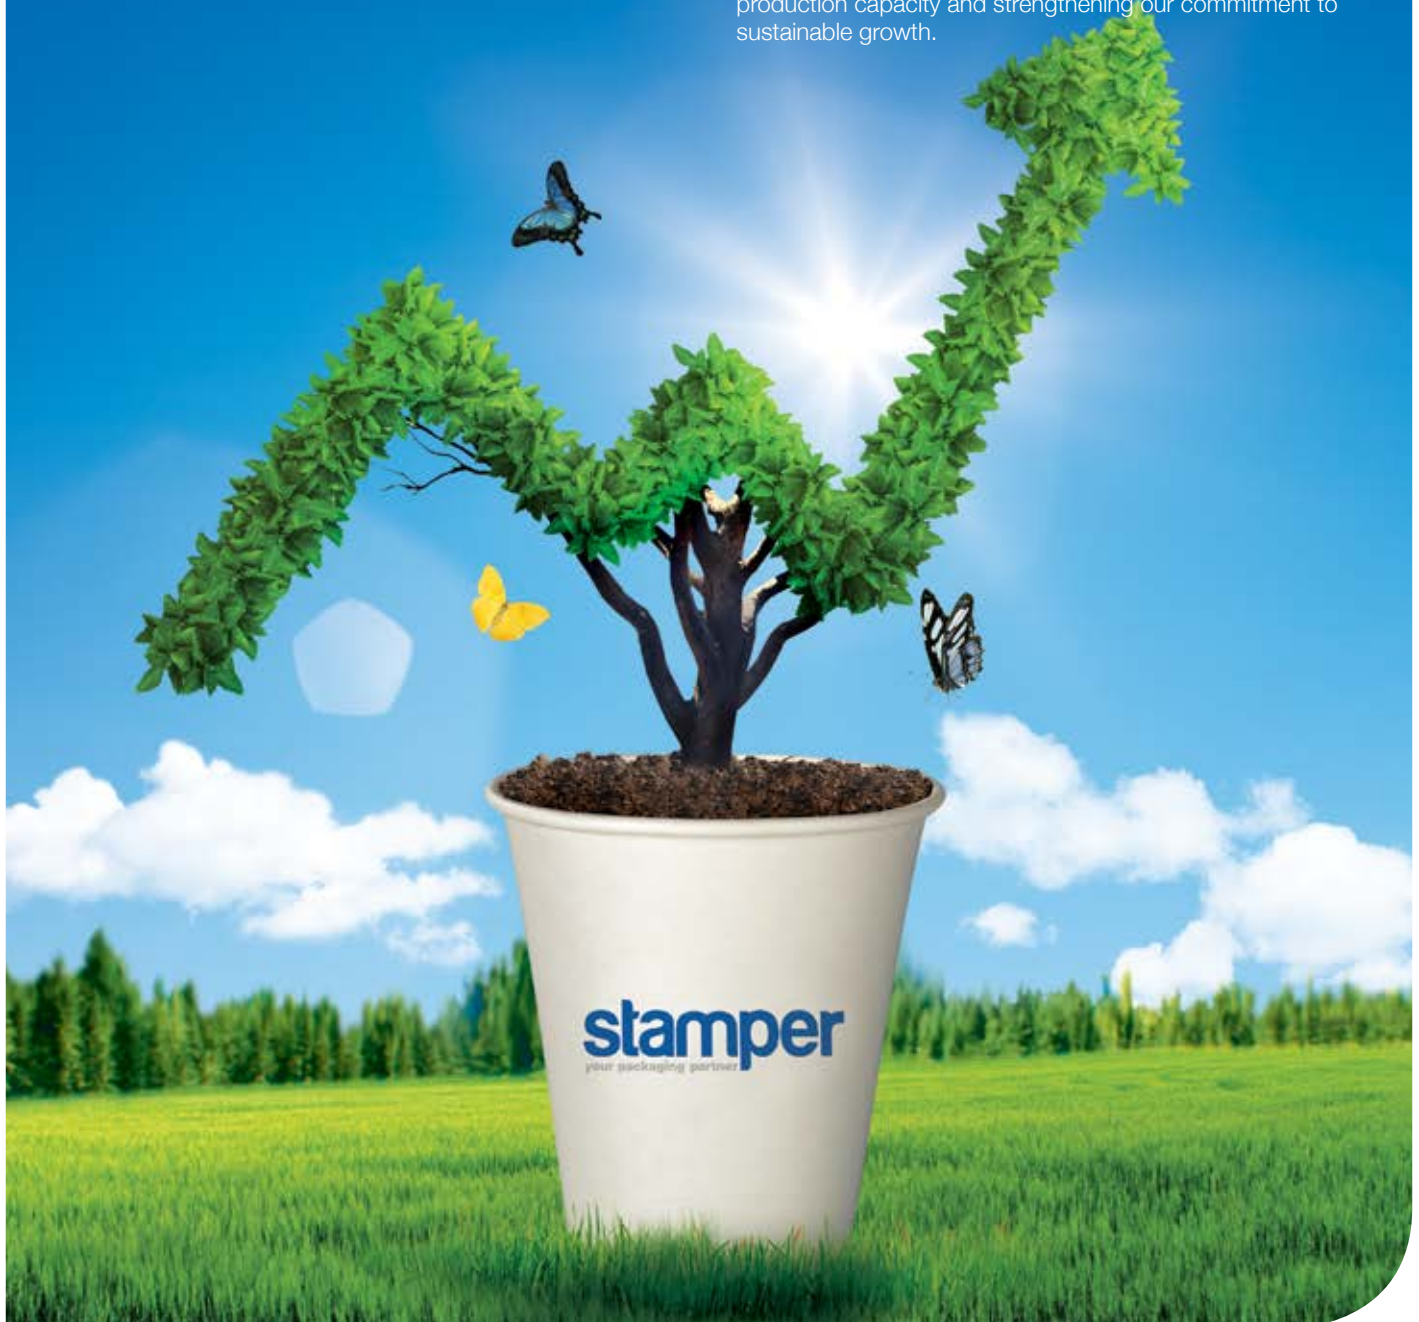

In 1996, we embarked on this adventure producing pizza boxes in Sweden and over the years, we achieved tremendous success through prospective projects and goals while prioritizing human needs.

In 2008, we expanded our operations into the production of paper cups, plates, and baking cups, rapidly securing our position as one of the leading manufacturers in Europe within this sector. This strategic expansion greatly enhanced our production capacity and deepened our industry expertise. We also ventured into the manufacturing of sanitary papers, further enhancing our capabilities and ensuring continuous growth in the industry.

In addition to our manufacturing operations, we oversee the marketing of our products through Stamper Sverige AB, which also functions as our dedicated sales office and showroom in Sweden. From this strategic location, we deliver comprehensive services across various regions, ensuring efficient distribution and fostering long-term, trusted relationships with our customers.

In 2019, we decided to bring together our wealth of experience under Stamper's roof, consolidating our expertise into a new company structure. Through this transformation, we continue to uphold our conservationist approach while manufacturing eco-friendly products.

In 2023, we expanded our operations further with the launch of a new production facility, significantly increasing our production capacity and strengthening our commitment to sustainable growth.

MISSION

Our mission is to provide high-quality and affordable services by holding onto ethical values, respecting consumer rights, complying with “Food Safety” practices, and using eco-friendly materials and state-of-the-art technology, with the help of our qualified team of specialists.

VISION

In addition to offering environmentally-conscious, bio-degradable, hygienic and food-safe bio and compost products and innovative products, our vision is to also produce economical solutions for eco-friendly food packaging with an aim to share the know-how we have acquired in Sweden, the pilot region of Europe in this regard, with our conscious consumers, and popularize the use of the resulting products.

Stamper Main Products Category
consist of three main product groups:
Plates, Cups and Take Away Products .

Concept sets can be created either by offering
printed or unprinted versions of the product,
depending on consumer needs.

MAIN PRODUCTS

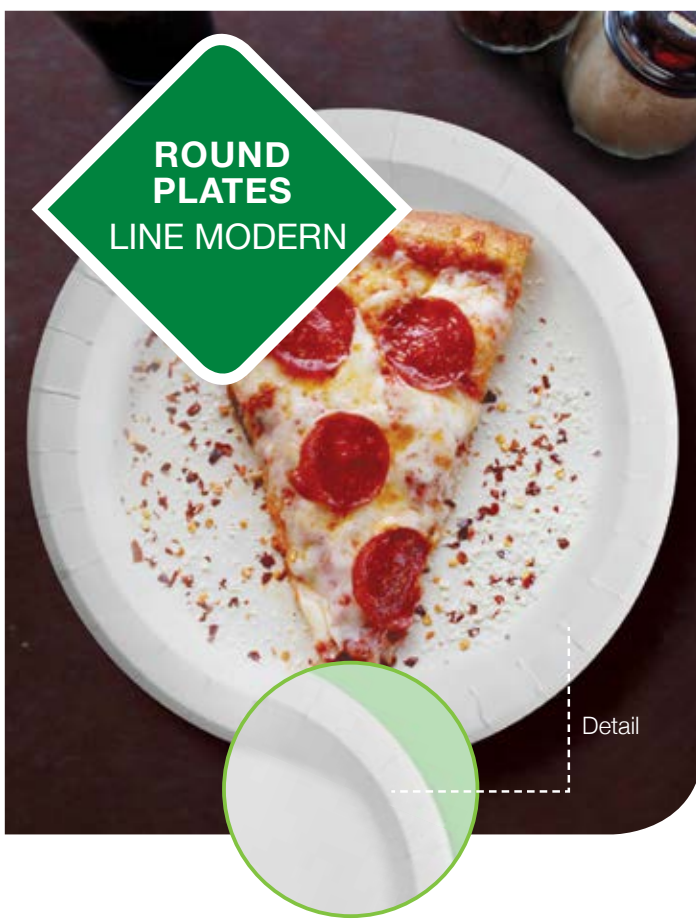

Besides the standard plates offered in the **Stamper Plates Category**, we can produce plates in custom sizes and preferred shapes (**round, square, rectangular, elliptical, oval, as well as service and party plates**).

You can order either unprinted or custom printed plates for your brand.

PLATE SURFACE COATING TECHNICAL DETAILS

Product variation

m ² / gr	Surface	Box	Packaging
190	LAMINATED	Pallet	2 psc
	BIO BARRIER	RSC	25 psc
	Standard		50 psc
400	Unbleached (Brown, White)	Medium	100 psc

STANDARD

Our Standard plate is the best choice for dry foodstuff. The high development and high quality of the product have made our Standard plates preferred by many of our customers. The perfect combination of price and quality.

UNBLEACHED

The new Brown range is the new face of Eco-friendliness.

The carton in these plates is not subjected to any bleaching process, giving them a more natural look.

OPTIONS

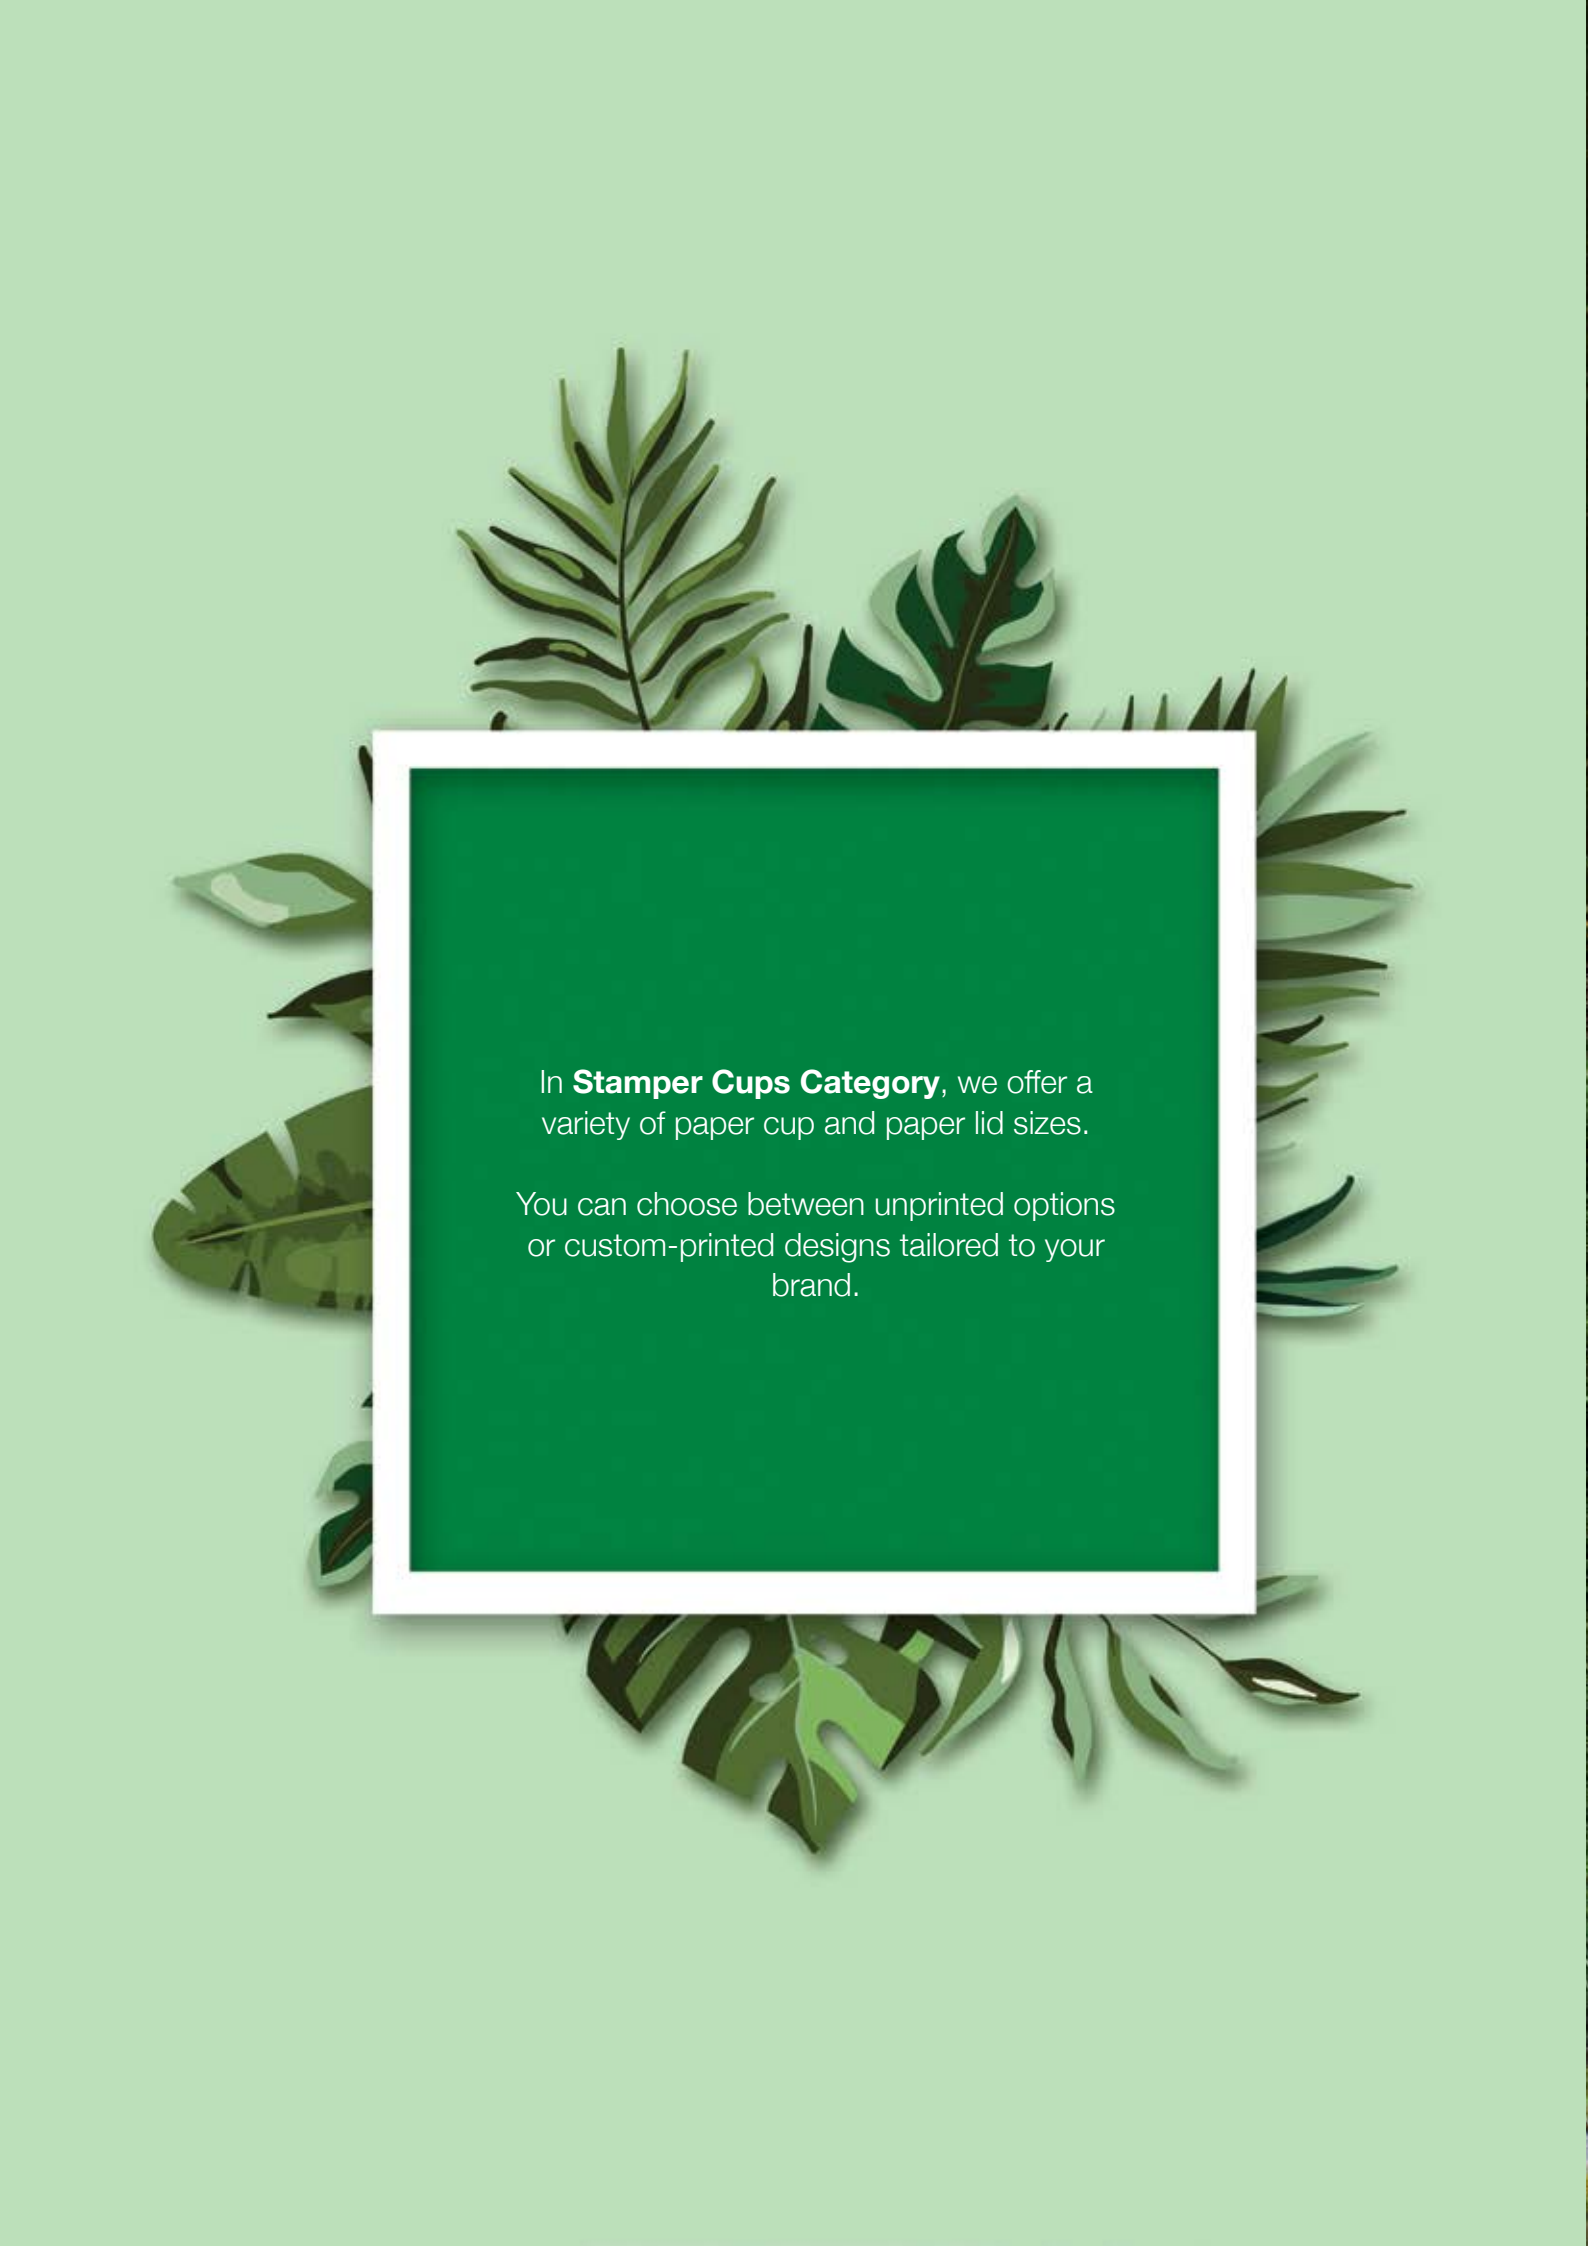

LAMINATED

Our laminated plates have an indefinite barrier against grease and moisture.

BioBarrier

Bio-coating is a treatment that allows the consumer to enjoy any type of food on his disposable plate.

The bio-coating is a water-based lacquer that is biodegradable.

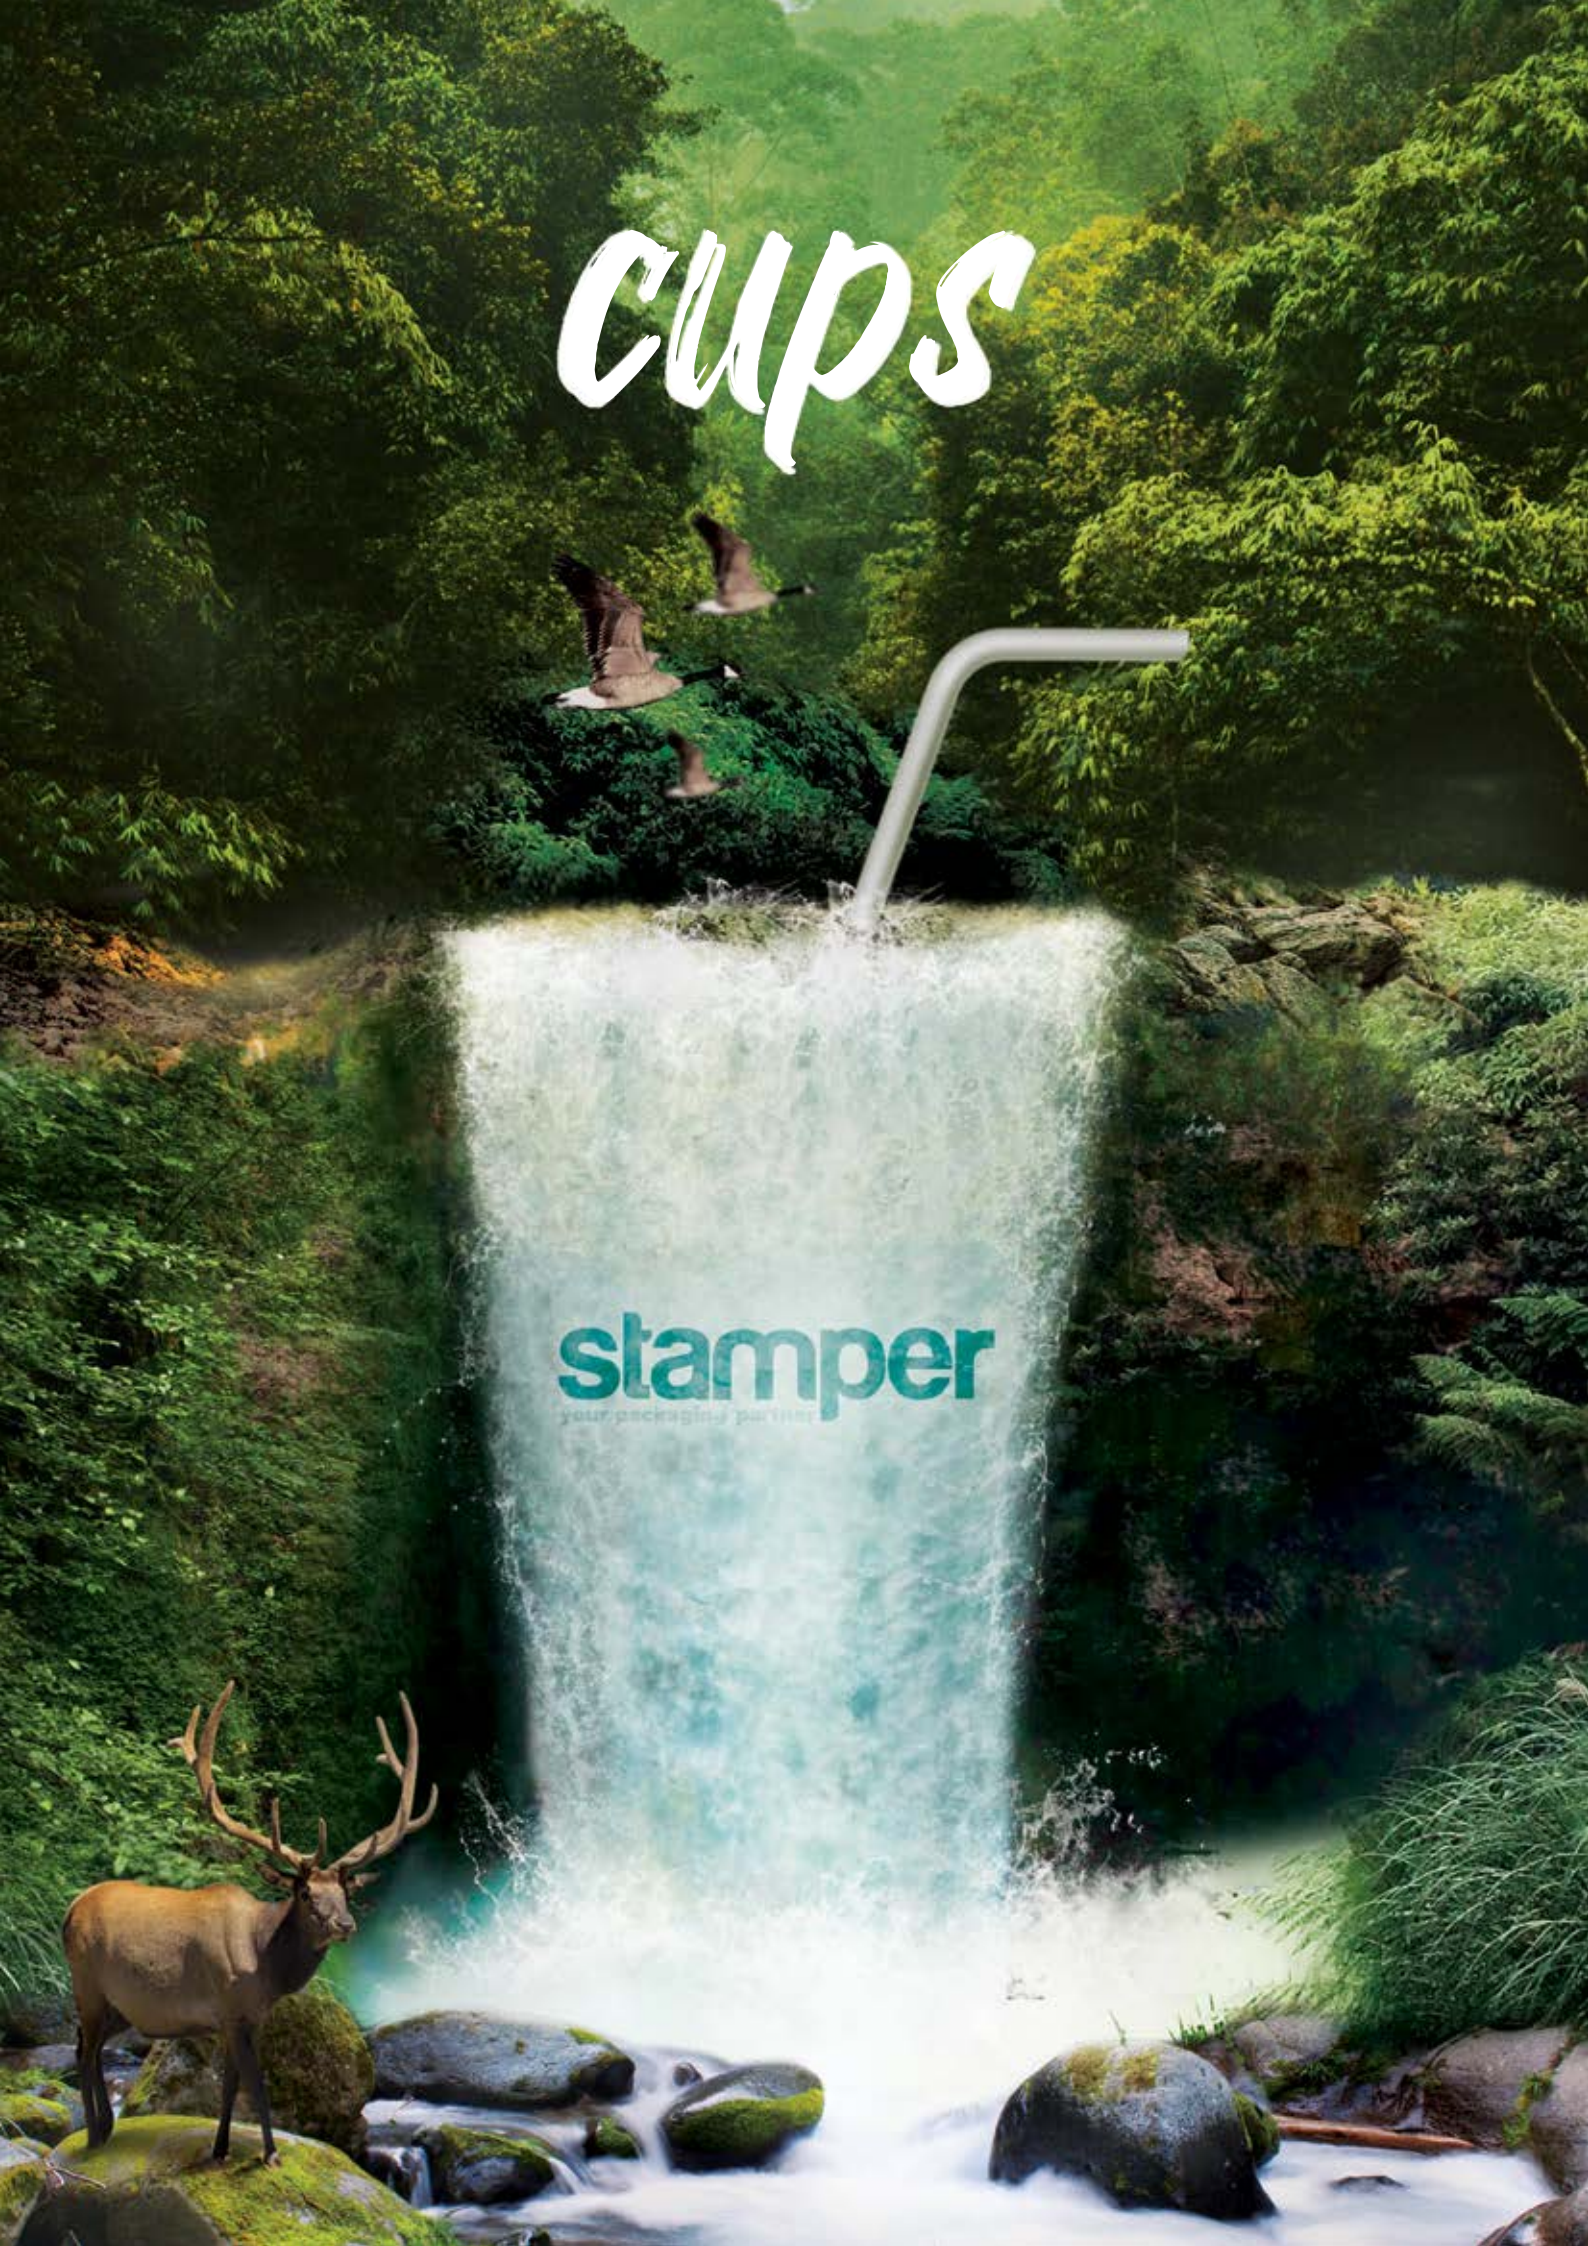

In **Stamper Cups Category**, we offer a variety of paper cup and paper lid sizes.

You can choose between unprinted options or custom-printed designs tailored to your brand.

The background is a light green color. In the center, there is a large, solid green square with a white border. Surrounding this square are several stylized green leaves of different shapes and sizes, including ferns and monstera leaves, arranged in a circular pattern around the square.

In **Stamper Take-away Category**, we offer eco-friendly, natural and practical solutions for businesses with takeaway needs.

A collection of eco-friendly takeaway products. In the foreground, a white disposable cup lies on its side. Behind it, several brown paper bags of different sizes are visible, some with white interiors. To the right, a stack of brown paper plates is partially visible. In the background, a pair of wooden chopsticks stands upright. The overall aesthetic is clean and sustainable.

REUSABLE CUPS

Why Should We Use Reusable Cups?

By choosing a reusable cup, you will make an environmentally friendly choice and you can easily use these cups for many different beverages.

In this way, you will reduce waste, have a lower carbon impact than using the same number of single-use plastic cups and disposing of them and have a budget-friendly product that you can use for a long time.
